Art Unit: 1796

The amendment received 25 July 2007 has been made of record. Claims 1-27 are pending.

The rejection under 35 USC 112 contained in the previous office action is withdrawn in view of applicants' amendments.

The indicated allowability of claims 1 and 2 is withdrawn in view of new prior art.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Spencer et al.

Spencer et al disclose aqueous writing compositions comprising pigment dispersants (column 8, line 66 to column 9, line 33), primary amines (column 8, lines 40-64) and defoamers (composition 1).

Claims 3-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9-27 are allowed.
